

The time is *NOW* for Specialty Pharmacy!

*Is your hospital or health system ready?
Let CarepathRx position you for the future.*

Health systems large and small are challenged with the ever-evolving specialty pharmacy market. Some of the opportunities presented before you include:

Pharma restricting 340B to health system-owned pharmacies.

State and federal legislation targeting PBM powers.

Gain direct operational oversight of your own specialty pharmacy services.

CarepathRx professionals develop the industry's most clinically advanced, profitable specialty pharmacy operations by leveraging the benefits of our purpose-built infrastructure and speed to implementation—fully operational in 6 months or less. Let CarepathRx build and execute a specialty pharmacy program tailored to meet your unique specifications with our comprehensive list of services.
