Home Enteral & Parenteral

Nutritional Therapy

Accredited By
The Joint Commission!

National Coverage Guidelines

Keep the following coverage requirements in mind when submitting claims for Nutrition Therapy.

PARENTERAL NUTRITION

Parenteral nutrition is covered for permanent severe pathology of the alimentary tract, which does not allow absorption of sufficient nutrients to maintain weight and strength commensurate with the patient's general condition.

The beneficiary must have permanent impairment, defined as at least 3 months. Nutritional supplementation is not covered under Medicare Part B.

Claims Must Include the Following Information:

- ✓ A Total Caloric Daily Intake (20-35 cal/kg/day) is Considered Sufficient to Achieve or Maintain Appropriate Body Weight
- ✓ Must Provide Medically Necessity for any Caloric Intakes Outside the Required Range
- ✓ Length of Need-Test-of Permanence—Greater Than 90 Days
- ✓ Signed Physician's Detailed Written Order and Following Provider
- ✓ Lab Results
- ✓ History and Physical
- ✓ Medical Necessity Must be Documented In the Medical Record
- ✓ Maintaining Weight and Strength Commensurate With the Patient's General Condition
- ✓ Latest TPN Recipe (if available)
- ✓ Home Care Pharmacy to Manage the Patient's TPN

ENTERAL NUTRITION

Enteral therapy is covered for permanent non-function or disease of the structures that normally permit food to reach or be absorbed from the small bowel and require tube feeding to provide sufficient nutrients to maintain weight and strength commensurate with the patient's overall health status.

The beneficiary must have permanent impairment, defined as at least 3 months. Nutritional supplementation is not covered under Medicare Part B.

Claims Must Include the Following Information:

- ✓ Signed Physician's Detailed Written Order
- ✓ Specific Prescription
- ✓ Medical Necessity Must be Documented In the Medical Record (for example: hospital records, and/or clinical findings from the attending physician.)
